What cookies do we use on our site

1 What is a cookie?

Cookies are data placed on your computers or mobiles. They are distinguishable by their unique identifiers, associated with your computers or telephones. These allow you to avoid having a bad consumer experience on your favorite sites, since they remember your actions and preferences. Thus, you do not need to enter your browsing preferences each time you use it, such as location, font or language.

These "cookies" are stored in RAM on your computer. They do not allow us to identify you; on the other hand, they record information relating to the navigation of your computer on the Site (the pages that you have consulted, the date and time of the consultation, etc.) that we can read during your subsequent visits.

For all Data Processing related to the collection of cookies, Scan-Match / Captag determines the means and purposes of the Processing. Thus, Scan-Match / Captag acts as Data Controller, within the meaning of the Regulations relating to Personal Data, and in particular Regulation (EU) 2016/679 relating to the protection of natural persons with regard to the Processing of Personal Data and the free movement of such Data.

Scan-Match / Captag attaches the greatest importance and the greatest care to the protection of privacy and personal data, as well as to compliance with the provisions of the Applicable Legislation.

This Cookies Policy (hereinafter the "Policy") aims to provide you with simple, clear information on how your Data is collected through cookies placed on the Internet.

2 Are cookies placed when you browse our platforms?

During your first visit to the Website, a banner informs you of the presence of these cookies and invites you to indicate your choice. Cookies requiring your consent in accordance with the regulations are only deposited if you accept them. You can inform yourself at any time and configure cookies to accept or refuse them by going to the Cookie management link at the bottom of each page of the site or by configuring your browser.

3 What data is collected through cookies?

All data relating to a terminal at a given time can be collected via cookies, in particular:

- One or more technical identifier(s) to identify your internet box
- The date, time and duration of connection of a terminal to a Website;
- The Internet address of the originating page of the terminal accessing the Website;
- The type of operating system of the terminal (ex: Windows, MacOs, Linux, Unix, etc.);
- The type and version of browser software used by the terminal (Internet Explorer, Firefox, Safari, Chrome, Opera, etc.);
- The brand and model of the mobile device or tablet;
- Possible download errors;
- The language in which the browser software used by the terminal is used;
- The characteristics of the content consulted and shared;

4. What are the purposes of the cookies and trackers collected?

Operating cookies

They are necessary for the operation of the website and allow you to use the main functionalities of the site and in particular to record information between two consultations of the site on the same device. They do not require your prior consent. These cookies are essential for the proper functioning of the Site. These cookies are valid for 6 months.

Navigation plotters

They make it possible to follow your journey on the platform in order to identify the pages visited and the content consulted. They are only used within the framework of this platform and are communicated only to the organizer of the event. These tracers have a duration of 2 months from the end of the service unless explicitly requested by the organizer, for example to maintain the platform for a longer period.

5. Who places cookies on the website?

The entities depositing cookies on the website are:

- The publisher of the site is Scan-Match / Captag;
- Scan-Match / Captag's subcontractors, namely the technical service providers who process your Browsing Data on behalf of Scan-Match / Captag;

6. How to configure cookies on web browsers?

You have the choice to configure your browser to accept or refuse all cookies, to delete cookies periodically or to see when a cookie is issued, its validity period and its content, and refuse to save it on your hard drive.

You can at any time choose to block or deactivate these cookies by setting the internet browser on your computer, tablet or mobile, in accordance with the instructions established by your internet browser provider and appearing on the Websites mentioned below. :

On Internet Explorer
Open the "Tools" menu, then select "Internet Options"; click on the "Confidentiality" tab then the "Advanced" tab choose the desired level or follow the following link: https://support.microsoft.com/fr-fr/help/17442/windows-internet-explorer-delete-manage-cookies
